

Introducing a New Experience

3 YEAR
WARRANTY

Overview

A new revolutionary product combining solar and LED technology. The best solution for all these areas that doesn't have electricity supply, remote places with no good communications, and all the areas with electricity supply but with good climatology. The system charges the battery during the day and illuminate at night. Due to the use of LED technology, is able to maximize all the solar energy and illuminate the environment with radiant light.

Application

- Garden, Residence, Courtyard
- Areas with difficult communications
- All areas with good climatology
- Areas with no electrical supply

Introducing a New Premium Experience

Product benefits

LG Innotek LED LUMINOUS SOURCE

The new ZGSM integrated solar street lights utilize LG LED luminous source, which guarantees excellent lumen output up to 110Lm/W, great stability and fantastic light.

Each LG LED owns electrostatic protection component, avoiding electrostatic damage.

Infrared body sensor/ Microwave induction

With infrared body induction controlled technology, it can store energy during the daylight, and modulate it on/off when people pass through at night.

During the night, the light can work automatically controlled by the smart sensor: It will be on bright mode when people pass through and on energy-saving mode when not (working mode can be adjusted according to client's demands).

All-in-one design

The solar panel will receive the solar energy and be stored in the Lithium-Iron battery through the charge controller, to finally be used to illuminate at night. Due to the use of high-end LED technology, the solar light will be 100% optimized.

Introducing a New Premium Experience

Product benefits

UNIQUE LUMINARIE DESIGN

The lamp is 100% Designed by ZGSM engineers. The integrated design makes the light simple, stylish and practical; solar energy supply means clean energy and clean energy means save costs. Once installed, it will not need to face any other costs.

The luminaire can be adjusted to different angles, depending on the latitude and characteristics of the land. It can be installed vertically and horizontally, or on a wall. It is designed to install, maintain or repair easily, maintain or repair. Its surface can absorb all the solar energy and its infrared body sensor modulates to save energy during night-time. All these are without cables.

The Lithium-Iron battery is compressed and has three main characteristics: reduced size, high-capacity and long life-span.

Up to 110 Lm/W (Lumens per Watt) light output and +90% driver efficiency. ZGSM provide 3 years warranty for the luminaire.

For more information about ZGSM integrated solar street light and LED lighting technologies, please visit www.zgsm-china.com.

FLEXIBLE INSTALLATION

The installation can be adjusted according to different environments or illumination needs.

ZGSM-PVLD10

Introducing a New Premium Experience

Automatic light control

- Infrared sensor
- Microwave induction

After the sensor activates may occur two different reactions:

- When the battery is working in "normal mode", the lamp will turn to "save mode". After one minute will turn back to "normal mode".
- When the battery is working in "low battery mode", one minute after working in "save mode", the lamp will turn to "50% light mode"

Specifications

Electrical Specifications:

Model No.	ZGSM-PVLD10
LED Number	7 Units
Nominal Power	10 W
Solar Panel Spec.	Monocrystal 25W/18V
Battery Spec.	9AH/12V
Constant Worktime at Full Power	8 Hours
Worktime at Energy-saving Mode(25%)	≥40 Hours
Charge Time	Max power 5~6 Hours
Charge Temperature	<60°C
Discharge Temperature	-20°C~60°C
Switch Lights Sense Threshold	on ≤10 LXS, off ≥15 LXS

Photometric Specifications:

Luminous Flux (full power)	1100 lm (±Lumen tolerance +/- 5%)
Light Type	1S
CCT	<div style="display: flex; gap: 10px;"> <div style="border: 1px solid black; border-radius: 50%; width: 25px; height: 25px; background-color: #f96; display: flex; align-items: center; justify-content: center;">3000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 25px; height: 25px; background-color: #f9c; display: flex; align-items: center; justify-content: center;">4000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 25px; height: 25px; background-color: #fff; display: flex; align-items: center; justify-content: center;">5000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 25px; height: 25px; background-color: #fff; display: flex; align-items: center; justify-content: center;">5700K</div> </div>

Mechanical Specifications:

Installation Height	3~4m
Installation Distance	12m
Lamp Pole Diameter	40~60mm
Fixture Dimensions	782 x 301 x 88 mm 30.8 x 11.9 x 3.5 inches
Fixture Weight	7.1 kg / 15.7 lbs

1S

Packing Type

1 unit(s)/ctn.

Packing Dimensions

860 x 375 x 140 mm
33.9 x 14.8 x 5.5 inches

Packing Weight

8.3 kg / 18.3 lbs

ZGSM-PVLD15

Introducing a New Premium Experience

Automatic light control

- Infrared sensor
- Microwave induction

After the sensor activates may occur two different reactions:

- When the battery is working in "normal mode", the lamp will turn to "save mode". After one minute will turn back to "normal mode".
- When the battery is working in "low battery mode", one minute after working in "save mode", the lamp will turn to "50% light mode"

Specifications

Electrical Specifications:

Model No.	ZGSM-PVLD15
LED Number	7 Units
Nominal Power	15 W
Solar Panel Spec.	Monocrystal 25W/18V
Battery Spec.	9AH/12V
Constant Worktime at Full Power	7 Hours
Worktime at Energy-saving Mode(25%)	≥35 Hours
Charge Time	Max power 5~6 Hours
Charge Temperature	<60°C
Discharge Temperature	-20°C~60°C
Switch Lights Sense Threshold	on ≤10 LXS, off ≥15 LXS

Photometric Specifications:

Luminous Flux (full power)	1650 lm (±Lumen tolerance +/- 5%)
Light Type	1S
CCT	<div style="display: flex; gap: 10px;"> <div style="border: 1px solid black; border-radius: 50%; width: 20px; height: 20px; background-color: #f96; display: flex; align-items: center; justify-content: center;">3000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 20px; height: 20px; background-color: #f9c; display: flex; align-items: center; justify-content: center;">4000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 20px; height: 20px; background-color: #fff; display: flex; align-items: center; justify-content: center;">5000K</div> <div style="border: 1px solid black; border-radius: 50%; width: 20px; height: 20px; background-color: #fff; display: flex; align-items: center; justify-content: center;">5700K</div> </div>

Mechanical Specifications:

Installation Height	3~4m
Installation Distance	15m
Lamp Pole Diameter	40~60mm
Fixture Dimensions	782 x301 x88 mm 30.8 x11.9 x3.5 inches
Fixture Weight	7.1 kg /15.7 lbs

ZGSM-PVLD20

Introducing a New Premium Experience

Automatic light control

- Infrared sensor
- Microwave induction

After the sensor activates may occur two different reactions:

- When the battery is working in "normal mode", the lamp will turn to "save mode". After one minute will turn back to "normal mode".
- When the battery is working in "low battery mode", one minute after working in "save mode", the lamp will turn to "50% light mode"

Specifications

Electrical Specifications:

Model No.	ZGSM-PVLD20
LED Number	10 Units
Nominal Power	20 W
Solar Panel Spec.	Monocrystal 33W/18V
Battery Spec.	16.5AH/12V
Constant Worktime at Full Power	7 Hours
Worktime at Energy-saving Mode(25%)	≥35 Hours
Charge Time	Max power 5~6 Hours
Charge Temperature	<60°C
Discharge Temperature	-20°C~60°C
Switch Lights Sense Threshold	on ≤10 LXS, off ≥15 LXS

Photometric Specifications:

Luminous Flux (full power)	2200 lm (±Lumen tolerance +/- 5%)
Light Type	1S, 2S
CCT	

Mechanical Specifications:

Installation Height	4~5m
Installation Distance	18m
Lamp Pole Diameter	40~60mm
Fixture Dimensions	969 x 301 x 88 mm 38.1 x 11.9 x 3.5 inches
Fixture Weight	8.9 kg / 19.6 lbs
